# Staff Performance Evaluation Plan Submission Coversheet SY 2021-22

**CONTEXT:** Indiana Code (IC) 20-28-11.5-8(d) requires each school corporation to submit its entire staff performance evaluation plan to the Indiana Department of Education (IDOE) and requires IDOE to publish the plans on its website. This coversheet is meant to provide a reference for IDOE staff and key stakeholders to view the statutory- and regulatory-required components of staff performance evaluation plans for each school corporation. Furthermore, in accordance with IC 20-28-11.5-8(d), a school corporation must submit its staff performance evaluation plan to IDOE for approval in order to qualify for any grant funding related to this chapter. Thus, it is essential that the reference page numbers included below clearly demonstrate fulfillment of the statutory (IC 20-28-11.5) and regulatory (511 IAC 10-6) requirements.

Sunman-Dearborn Community Schools provides annual evaluations for the following certificated employee groups:

- a. Superintendent of Schools
- b. Principals
- c. Assistant Principals
- d. Certified Teachers

- e. Certified Counselors
- f. Certified A/V and Media Specialists
- g. Certified Speech Pathologists

Sunman-Dearborn Community School Board has approved an evaluation tool for the Superintendent of Schools on September 13, 2012. The evaluation model that will be used for the Superintendent of Schools was developed by the Indiana School Board Association (ISBA) in conjunction with input from the Indiana Association of Public School Superintendents (IAPSS). A copy of this document is included in Appendix A.

A Teacher Evaluation Committee meet during the 2017-2018 school year to modify the Teacher rubric. This new rubric was implemented during the 2018-2019 school year. The committee met again at the end of the 2018-2019 school year to make slight modifications to the rubric. A copy is included in Appendix D.

Sunman-Dearborn Community Schools will utilize rubrics developed from the Superintendent Evaluation model, Modified Rise Evaluation Model for Administrators and Modified Rise Evaluation Model for Teachers. The corporation also plans on using the evaluation models for the Certified Counselors, Certified AV and Media Specialists and Certified Speech Pathologists.

Sunman-Dearborn Community School Board has adopted the Superintendent Evaluation, Rise Evaluation for Administrators and the Rise Evaluation for Certified Teachers that incorporates the summative ratings of highly effective, effective, improvement necessary and ineffective. These definitions and ratings can be found in Appendices A-C.

Sunman-Dearborn Community School Board has adopted the Superintendent Evaluation, Rise Evaluation for Administrators and the Rise Evaluation for Certified Teachers that incorporates the summative rating modification if and when a teacher negatively affects student growth. The corporation's definition for negative impact is as follows: (1) For classes measured by statewide assessments with growth model data, the department shall determine and revise at regular intervals the cut levels in growth results that would determine negative impact on growth and achievement.

(2) For classes that are not measured by statewide assessments, negative impact on student growth shall be defined locally where data show a significant number of students across a teacher's classes fails to demonstrate student learning or mastery of standards established by the state.

Teachers determined to have a negative impact on students in the growth model category will not be eligible for a summative rating of "Effective" or "Highly Effective."

For classes that are not measured by statewide growth model assessments, a teacher must satisfy the following two variables, in order to be determined as having a negative impact on student learning. Teachers meeting both variables will not be eligible to receive a summative rating in the "Effective" or "Highly Effective" range.

- a. The teacher receives an ineffective rating on both SLOs (class and targeted, or both targeted), and
- b. Fewer than 80% of his/her students pass the end of course assessment.

This modification can be found in Appendix C.

Sunman-Dearborn Community School Board has adopted the Superintendent Evaluation, Rise Evaluation for Administrators and the Rise Evaluation for Certified Teachers that incorporates the summative ratings of highly effective, effective, improvement necessary and ineffective. These definitions and ratings can be found in Appendices A-C.

All Sunman-Dearborn Community School Corporation administrators have been trained in the RISE Evaluation System for the evaluation of teachers and administrators. The building principals, assistant principals and athletic director who have administrator licenses have been trained and they will evaluate teachers. S-DCSC superintendent, East Central High School Principal, and Sunman-Dearborn Middle School Principal have been trained in the administrator evaluation process and will evaluate the administration. The process for determining evaluators was based on all the fact that all evaluators must hold a valid administrator license.

Sunman-Dearborn Community School Corporation is a member of the Wilson Education Service Center (WESC). Administrators are allowed to attend training sessions on RISE and teacher evaluations at WESC. In addition, we hold quarter inter-rater reliability (IRR) sessions as part of the principals meetings. These sessions will occur in October, January, and April.

S-DCSC utilizes an online system for delivering completed evaluations, PIVOT. Teachers immediately receive email notifications when their evaluation is complete.

All teachers rated as ineffective or improvement necessary receive are assigned a remediation plan. Remediation plans include job-embedded professional development tied directly to the teacher's deficiencies, as indicated by the evaluation.

Teachers rated as ineffective or improvement necessary receive professional improvement plans based on their professional development.

Teachers must request a conference with the superintendent in writing.

Through staffing and master schedule building, principals and guidance counselors have an established process of ensuring students do not receive instruction from ineffective teachers two years in a row.

We have yet to experience this type of scenario. However, if it does occur, teachers will have a conference with the building principal, and will later receive a letter verifying the student assignment is unavoidable.

# **ISBA/IAPSS Superintendent Evaluation Metrics**

### **LEADERSHIP OUTCOMES (60%):**

Effectiveness Rubric (70%): This score is obtained from the evaluation rating from the ISBA/IAPSS Superintendent Evaluation Rubric. The process for determining this is outlined in the rubric itself. In this example, it is weighted at 70% of the superintendent's comprehensive rating.

	Category	Points
Effectiveness	Highly Effective (HE)	4
Rubric	Effective (E)	3
	Improvement Necessary (I)	2

## **STUDENT LEARNING DATA (10%):**

Accountability A-F Grade (10%): The Accountability A-F Grade is obtained through its own rating process that incorporates growth and achievement. This rating is available through IDOE in August of each year to include in the evaluation. It is weighted at 10% of the superintendent's comprehensive rating in this example.

A-F Grade	Category	Points
A	Highly Effective (HE)	4

D or F	Ineffective (IN)	1

## **SUPERINTENDENT GOALS/OBJECTIVES (30%):**

This is an opportunity for superintendents to focus on individual goals/objectives mutually identified by the superintendent and school board that address local needs, focus on specific areas of school administration, or that emphasize areas of personal growth and performance. It is weighted at 20% of the superintendent's comprehensive rating in this example.

The guidelines for Superintendent Goals/Objectives are as follows:

- 1. Must be collaboratively set by superintendent and school board
- 2. Must be measurable
- 3. Must represent a minimum of two goals
- 4. May be corporation or school-based
- 5. Can be reflective of personal growth or achievement

# **Sunman Dearborn Evaluation for Principals**

#### **Domain 1: Teacher Effectiveness**

Great principals know that teacher quality is the most important in-school factor relating to student achievement. Principals drive effectiveness through (1) their role as a human capital manager and (2) by providing instructional leadership. Ultimately, principals are evaluated by their ability to drive teacher development and improvement based on a system that credibly differentiates the performance of teachers based on rigorous, fair definitions of teacher effectiveness.

## **Domain 2: Leadership Actions**

Great principals are deliberate in making decisions to raise student outcomes and drive teacher effectiveness. Certain leadership actions are critical to achieving transformative results: (1) modeling the *personal behavior* that sets the tone for all student and adult relationships in the school; (2) *building relationships* to ensure all key stakeholders work effectively with one another; and (3) developing a school wide *culture of achievement* aligned to the school's vision of success for every student.

# **Sunman Dearborn Evaluation for Assistant Principals**

#### **Domain 1: Teacher Effectiveness**

Great principals know that teacher quality is the most important in-school factor relating to student achievement. Principals drive effectiveness through (1) their role as a human capital manager and (2) by providing instructional leadership. Ultimately, principals are evaluated by their ability to drive teacher development and improvement based on a system that credibly differentiates the performance of teachers based on rigorous, fair definitions of teacher effectiveness.

### **Domain 3: Core Professionalism Rubric**

These indicators illustrate the minimum competencies expected in any profession. These are separate from the other sections in the rubric because they have little to do with teaching and learning and more to do with basic employment practice. Teachers are expected to meet these standards. If they do not, it will affect their overall rating negatively.

### **AISLE School Librarian Evaluation Rubric**

AISLE Board Approved Copyright 2012 January 28, 2012

Allowable Modifications to the School Librarian Evaluation Rubric

It is recommended that this document be used in its entirety as it is best practice for a school librarian. The following minor edits do not require permission from AISLE:

- Use of the rubric with all domains and competencies
- Addition of competencies
- Notes added to clarify the domains or competencies

The rubric should not be changed to fit the current job description of the school librarian, but the rubric should be followed as an example of best practice in the field of school librarians.

Expected Levels of Competency – Use established weights below when using the School Librarian Evaluation Rubric. While all domains and competencies must be included, these weights may be changed by individual schools; however, no Domain may fall below 25%.

Domain 1 30%

Domain 2 40%

Domain 3 30%

It is expected that School Librarians will follow the percentages of the Group 3 teachers with no growth model classes posted in the original RISE document; however, this may be changed within each school corporation if the SLO is not used.

## **Domain 1: Purposeful Planning**

School librarians work in collaboration with the classroom teacher to develop a rigorous curriculum relevant for all students. Additionally, school librarians will plan the library media program for the school. Level of Performance

Notes 1.3

<sup>1.</sup> This competency refers to knowledge of the library collection and finding information for staff and students. The evidence may include, but is not limited to, the school library book collection, using interlibrary loan, internet sources, database sources, or the use of the public library collection. A highly effective librarian will use many of these resources to provide information for staff or students.

1.4	Developing and implementing a plan to evaluate the library program	School librarian's evaluation plan is highly sophisticated, with imaginative sources of evidence and a clear path toward improving the program on an ongoing basis The librarian proactively responds to the evidence of the evaluation.	School librarian's plan to evaluate the program is organized around clear goals and the collection of evidence to indicate the degree to which the goals have been met.	School librarian has a rudimentary plan to evaluate the library program.	School librarian has no plan to evaluate the program or resists suggestions that such an evaluation is important.
Notes 1.4  1. Some sources of evidence	may include student and staff surv	vevs. assessment documents, and	statistical data.

1.5	Establishing a culture for investigation and love of literature	In interactions with both students and colleagues, the school librarian conveys the essential nature of seeking information and reading literature.	In interactions with both students and colleagues, the school librarian conveys the importance of seeking information and reading literature.	School librarian goes through the motions of performing the work of the position, but without any real commitment to it.	School librarian conveys that the work of seeking information and reading literature is not worth the time and energy required.

1.6	Establishing and maintaining library procedures	Library routines and procedures (for example, circulation of materials, collection development policy, challenged materials form, students working independent within the library) are seamless in their operation.	Library routines and procedures (for example, circulation of materials, collection development policy, challenged materials form, students working independent within the library) have been established and function smoothly.	Library routines and procedures (for example, circulation of materials, collection development policy, challenged materials form, students working independent within the library) have been established but function sporadically.	Library routines and procedures (for example, circulation of materials, collection development policy, challenged materials form, students working independent within the library) are either non-existent or inefficient,

In addition, book displays are attractive and inviting.	School librarian makes effective use of the physical environment, resulting in good traffic flow, clear signage, and adequate space devoted to work areas and computer use.	School librarian's efforts to make use of the physical environment are uneven, resulting in occasional confusion by users. ### **Domain 2: Effective Instruction**

Librarians, working collaboratively with classroom teachers, facilitate student academic practice so that all students are participating and have the opportunity to gain mastery of the objectives. The librarian fosters a climate of urgency and expectation around achievement, excellence and respect.

For Competencies 2.2 through 2.5, in order to be highly effective, each competency says that the librarian must show some of the following indicators. We define "some" as at least one. All of the indicators under effective may not be shown in one observation, but should be shown throughout the observation cycle.

- 1. The most important indicator of success here is that students are actively engaged in the content. For a teacher to receive credit for providing students a way of engaging with content, students must be engaged in that part of the lesson.
- 2. Presence can best be represented by using engaging, confident, and assertive body language, tone, volume, and proximity.
- 3. Engagement is defined as on-task behavior. Some observable evidence of engagement may include (but is not limited to): (a) raising of hands to ask and answer questions as well as to share ideas; (b) active listening (not off-task) during lesson; or (c) active participation in hands-on tasks/activities.
- 4. Teachers may provide multiple ways of engaging with content via different learning modalities (auditory, visual, kinesthetic/tactile) or via multiple intelligences (spatial, linguistic,

## **Domain 3: Leadership**

Teachers develop and sustain the intense energy and leadership within their school community to ensure the achievement of all students.

	Competencies	Highly Effective (4)	Effective (3)	Improvement	Ineffective (1)
				Necessary (2)	
3.1	Contribute to school culture	School librarian seeks out leadership roles within the school, aimed at improving school efforts. Librarian goes above and beyond in dedicating time for students and peers outside of class.	School librarian contributes ideas and expertise aimed at improving school efforts. Librarian dedicates time efficiently, when needed, to helping students and peers outside of class.	School librarian will rarely contribute ideas and expertise aimed at improving school efforts. Librarian rarely dedicates time outside of class to helping students and peers.	School librarian never contributes ideas aimed at improving school efforts. Little or no time outside of class is dedicated to helping students and peers.

### Notes 3.1

1. An effective librarian participates in school events that make a substantial contribution above classroom expectations whereas a highly effective librarian additionally assumes a leadership role in at least one aspect of school life.

	Competencies	Highly Effective (4)	Effective (3)	Improvement	Ineffective (1)
				Necessary (2)	
3.2	Collaborate with Peers	School librarian will go above and beyond in seeking out opportunities to collaborate. Librarian will coach peers through difficult situations and take on leadership roles within collaborative groups such as Professional Learning Communities.	School librarian will seek out and participate in regular opportunities to work with and learn from others. Librarian will ask for assistance, when needed, and provide assistance to others in need.	School librarian will participate in occasional opportunities to work with and learn from others and ask for assistance when needed. Librarian will not seek to provide other teachers with assistance when needed or will not regularly seek out opportunities to work with others.	School librarian rarely or never participates in opportunities to work with others. Librarian works in isolation and is not a team player.

1. The main purpose of collaboration with peers is to support the curriculum.

2. A highly effective librarian will seek out opportunities to collaborate, whereas an effective librarian may collaborate when asked.

3. An effective librarian builds relationships with colleagues that are characterized by mutual support and cooperation whereas a highly effective librarian additionally takes initiatives in assuming

leadership among the faculty.

### **Domain 4: Core Professionalism**

These indicators illustrate the minimum competencies expected in any profession. These are separate from other sections in the rubric because they have little to do with teaching and learning and more to do with basic employment practice. Teachers are expected to meet these standards. If they do not, it will affect their overall rating negatively.

Indicator		Does Not Meet Standard	Meets Standard	
1	Attendance	Individual demonstrates a pattern of unexcused absences.*	Individual has not demonstrated a pattern of unexcused absences.*	
2	On-Time Arrival	Individual demonstrates a pattern of unexcused late arrivals (late arrivals that are in violation of procedures set forth by local school policy and by the relevant collective bargaining agreement).	Individual has not demonstrated a pattern of unexcused late arrivals (late arrivals that are in violation of procedures set forth by local school policy and by the relevant collective bargaining agreement).	

<sup>1.</sup> An effective librarian seeks and implements professional skills and knowledge whereas a highly effective librarian additionally shares and facilitates this information with colleagues regularly.

3	Policies and Procedures	Individual demonstrates a pattern of failing to	Individual demonstrates a pattern of following

<sup>\*</sup>It should be left to the discretion of the corporation to define "unexcused absence" in this context.

- 1. Complying with policies and procedures includes but is not limited to: Following IEP/504 plans, complying with discipline referral processes, parent communication expectations (typically e-mails or phone calls returned by within 24 hours during the work week), providing sub plans, implementing school rules, maintaining accurate, up-to-date records, and dressing professionally. The sub-committee recommends discussion of dress code expectations. Establishing clear expectations about jeans, flip-flops, revealing attire, etc. will be important for consistency.
- 2. Demonstrating respect to students, parents and colleagues includes maintaining appropriate (not too familiar) boundaries. Respectfully listening to negative feedback and maintaining emotional self-control even in heated situations is expected. Accepting constructive criticism is a hallmark of this standard.
- 3. It is understood that if an administrator has a concern about a teacher not meeting these standards, it will be called to the attention of the teacher as soon as possible so correction can ensue.

**Certified Speech Pathologists Evaluation** 

## **Domain 1: Purposeful Planning**

Speech Language Pathologists use Indiana content area standards to develop a rigorous curriculum relevant for all students: building meaningful units of study, continuous assessments, and a system for tracking student progress as well as plans for accommodations and changes in response to a lack of student progress.

- 1. Content may be communicated by either direct instruction or guided inquiry depending on the context of the classroom or lesson.
- 2. If the teacher presents information with any mistake that would leave students with a significant misunderstanding at the end of the lesson, the teacher should be scored a Level 1 for this competency.
- 3. Instructional strategies learned via professional development may include information learned during instructional coaching sessions as well as mandatory or optional school or district-wide PD sessions.

- 1. The most important indicator of success here is that students are actively engaged in the content. For a teacher to receive credit for providing students a way of engaging with content, students must be engaged in that part of the lesson.
- 2. Presence can best be represented by using engaging, confident, and assertive body language, tone, volume and proximity.
- 3. Some observable evidence of engagement may include (but is not limited to): (a) raising of hands to ask and answer questions as well as to share ideas; (b) active listening (not off-task) during lesson; or (c) active participation in hands-on tasks/activities.
- 4. Teachers may provide multiple ways of engaging with content via different learning modalities (auditory, visual, kinesthetic/tactile) or via multiple intelligences (spatial, linguistic, musical, interpersonal, logical-mathematical, etc.) It may also be effective to engage students via two or more strategies targeting the same modality or district-wide PD sessions.

- 1. Examples of types of questions that can develop higher-level understanding:
- -Activating higher levels of inquiry on Bloom's taxonomy (using words such as analyze, classify, compare, decide, evaluate, explain or represent.
- -Asking students to explain their reasoning, why they are learning something, or to summarize the main idea.
- -Asking students to apply a new skill or concept in a different context, or prompting students to make connections to previous material or prior knowledge.
- -Posing a question that increases the rigor of the lesson content.
- 2. Higher-level questioning should result in higher-level student understanding. If it does not, credit should not be given.
- 3. Challenging tasks rather than questions may be used to create a higher-level of understanding, and if successful, should be credited in the competency.

#### 4. The frequency with which a teacher should use questions to develop higher-level understanding will vary depending on the topic and type of lesson. 2.7 Maximize For Level 4, all of the -Students arrive on time and -Some students consistently arrive late -Students may frequently Instructional Time evidence listed under are aware of the (unexcused) for class without arrive late (unexcused) for Level 3 is present as well consequences of arriving late consequences class without consequences as some of the (unexcused). -Class may consistently start a few -SLP may frequently start following: -Class starts on time minutes late class late -There are few or no evident -Routines, transitions, -Routines, transitions, and -Routines, transitions, and procedures and procedures are wellprocedures are well-executed. are in place, but require significant SLP routines or procedures in executed. - 1. The overall indicator of success here is that operationally the classroom runs smoothly so that time can be spent on valuable instruction rather than logistics and discipline.
- 2. It should be understood that a teacher can have disruptive students no matter how effective he/she may be. However, an effective teacher should be able to minimize disruptions amongst these students and when they do occur, handle them without detriment to the learning of other students.

### Notes:

- 1. If there is one or more instances of disrespect by the teacher towards students, the teacher should be scored a Level 1 for this standard.
- 2. Elementary school teachers more frequently will, and are sometimes required to have expectations, rewards, consequences posted visibly in the classroom. Whether or not these are visibly posted, it should be evident within the culture of the classroom that students understand and abide by a set of established expectations and are aware of the rewards and consequences of their actions.
